

contemporary human societies, where direct male-male competition is reduced compared to ancestral societies, sporting competitions remain an avenue for status acquisition via intra-sexual competition. Beards are the most visually salient and sexually dimorphic of men's secondary sexual traits and play a strong role in communicating masculinity, dominance and aggressiveness intra-sexually. This process involved the gradual development of traits such as human bipedalism and language. Anatomical and Neural Bases 41 keys and apes produce schwa-like vowels (the vowel of the word "bubble") because their tongues are positioned almost entirely in their mouths.
